

PRESS RELEASE

AREVA Awarded Long-term Used Nuclear Fuel Storage Contract by FENOC

CHARLOTTE, N.C., December 3, 2014 – AREVA TN, a division of AREVA Inc., has been awarded a long-term, multimillion-dollar contract with FirstEnergy Nuclear Operating Company (FENOC) to provide dry fuel storage equipment and related services. AREVA TN will supply NUHOMS® dry fuel storage systems to the Davis Besse and Beaver Valley nuclear power plants. This includes the first order of AREVA TN's next-generation NUHOMS® Extended Optimized Storage (EOS) canisters and horizontal storage modules, which offer customers higher capacity and enhanced performance.

AREVA TN will manage the fuel loading campaigns for both plants as part of the contract. The used fuel loading is scheduled to begin in 2017 with additional services planned for 2019. The NUHOMS® canisters will be manufactured near Pittsburgh as part of AREVA TN's continued effort to support nuclear industry jobs in the United States.

“AREVA TN offers integrated and cost-effective solutions to its customers like FENOC, while still ensuring the safe, on-time delivery of its systems and fuel loading operations,” said Mike McMahon, senior vice president of AREVA TN Americas. “Our dry fuel storage systems offer high performance and low loading risk, and meet our customers’ stringent safety criteria.”

###

AREVA TN is the market leader for used fuel storage and fuel transportation in the U.S. and has more than 50 years of global experience supplying the nuclear industry with state-of-the-art fuel transportation and used fuel storage solutions. More than 900 AREVA TN used fuel storage systems have been loaded in the United States. Our success is based on our reputation for unparalleled human performance initiatives, a dedication to safety first, transparent pricing and business integrity that combine to ensure our customers get “as promised” cost savings and superior results.

MORE ABOUT

AREVA provides its customers with solutions for low-carbon power generation in North America and all over the world. As the leader in nuclear energy and a significant, growing player in the renewable energies sector, AREVA combines U.S. and Canadian leadership, access to worldwide expertise and a proven track record of performance. Sustainable development is a core component of AREVA's strategy. Its nearly 5,000 U.S. and Canadian employees work every day to make AREVA a responsible industrial player helping to supply ever cleaner, safer and more economical energy to the greatest number of people. AREVA Inc. is headquartered in Charlotte, N.C. Visit us at <http://us.aveva.com> or follow us at [Twitter: AREVAus](#).
